Atin Sahu

Full Stack Developer

React.js | Next.js | React Native | Expo | Node.js | Express.js | NestJS | MongoDB | PostgreSQL

jayshiv7171@gmail.com +91 6391977171 atin-sahu atin-sahu-7b7045219

Summary

Frontend-Focused Full Stack Developer with 4 years of experience designing, developing, and maintaining scalable web and mobile applications. Strong expertise in React.js, Next.js, React Native, Expo, JavaScript, TypeScript, Redux Toolkit, RTK Query, Zustand, Node.js, Express.js, NestJS, MongoDB, PostgreSQL, Redis, Strapi and RESTful APIs. Experienced in building end-to-end solutions from frontend architecture to backend services, database design, authentication, payment integrations, and deployment workflows. Experienced in application ownership, code reviews, mentoring junior developers, collaborating with cross-functional teams, and working in agile environments. Passionate about creating high-performance, user-centric applications while leveraging modern development tools and AI-assisted development workflows.

Skills

Frontend: HTML, CSS, Bootstrap, Tailwind CSS, Shadcn UI, Material UI, JavaScript, TypeScript

Frameworks: React.js, Next.js, React Native, Expo

State Management: Redux Toolkit, RTK Query, Zustand, Context API

Backend: Node.js, Express.js, NestJS, Redis, Strapi, REST APIs

Database & Tools: MongoDB, PostgreSQL, SQLAlchemy, Prisma, TypeORM, MongoDB Compass, pgAdmin

DevOps & Deployment: Cloudinary, Docker, Vercel, Netlify, Google Play Console, Android App Bundle (AAB) Deployment, Play Store Release Management, OTA Updates

API Tools: Postman, Swagger UI

Version Control: Git, GitHub, Bitbucket

AI Productivity: GitHub Copilot, Claude, ChatGPT, Cursor AI, ChatBot

Learning & Upskilling: FastAPI, Python, MySQL, RAG

Other: DSA, Payment Gateway Integration, Reusable Component Architecture, Performance Optimization, Leadership, Problem Solving, Team Collaboration, Code Reviews, Application Ownership, Junior Developer Mentorship

Experience

Tene Agricultural Solutions Pvt. Ltd. **Bangalore**

Software Developer (Full Stack) *04/2025 – 07/2026*

- Developed and maintained full-stack web and mobile applications for a large-scale AgriTech platform that supports 8+ user roles.
- Built responsive frontend applications using React.js, Next.js, React Native (Expo), TypeScript, Redux Toolkit and RTK Query.
- Developed and integrated backend APIs using Node.js, Express.js, MongoDB, and Strapi CMS to support business-critical workflows.
- Designed and implemented role-based access control, authentication workflows, crop payment modules, and notification services.
- Collaborated on database schema design, API architecture, and backend integrations for scalable application development.
- Integrated Razorpay payment gateway and third-party services, including Google Maps APIs.
- Using Docker-based development workflows and best practices for deployment.
- Designed reusable frontend and backend modules to improve development speed and maintainability.
- Conducted code reviews, mentored junior developers, and contributed to frontend and backend architecture decisions.

Value Creatives **Amritsar, Punjab**

Analyst Developer (Full Stack) *10/2022 – 03/2025*

- Developed full-stack web applications using React.js, Next.js, React Native, Node.js, Express.js, NestJS, MongoDB, PostgreSQL, Redis, JavaScript, and TypeScript.
- Built reusable frontend components and integrated REST APIs for multiple client projects.
- Developed backend APIs using Node.js, Express.js, and NestJS with MongoDB and PostgreSQL databases.
- Worked with TypeORM, SQLAlchemy and Prisma for ORM-based database operations across different projects.
- Implemented authentication systems, content management integrations, payment, and subscription-based workflows.
- Improved application performance, resolved production issues using application logs, and optimized backend workflows.

Key Projects

Farmer Advisory Mobile Application

- Developed a multilingual mobile application enabling farmer onboarding, advisory access, and subscription-based agricultural services.
- Built frontend modules using React Native, Expo, TypeScript, Redux Toolkit, RTK Query, and reusable component architecture.
- Developed backend-integrated workflows using REST APIs, MongoDB-based services, and secure authentication mechanisms.
- Implemented secure single-device login and farmer onboarding workflows with Google Maps API integration for location capture.
- Built package identification and recommendation flows to help farmers subscribe to suitable agricultural service packages.
- Integrated Razorpay payment gateway for seamless subscription and package purchase functionality.
- Developed dynamic advisory modules supporting text, links, audio, video, and image-based content.
- Implemented order-raising workflows allowing farmers to purchase pesticides and fertilizers directly from advisory recommendations.
- Participated in database schema planning and API design discussions for scalable application architecture.
- Implemented notification workflows for advisory updates, order activities, and subscription-related events.
- Configured multi-profile builds for different environments and deployment configurations.

GreetPool - Collaborative Greeting Card Platform

- Developed responsive frontend features for a collaborative greeting card SaaS platform using React.js, Next.js, TypeScript, Redux, and Tailwind CSS.
- Built user workflows for creating personalized digital greeting cards and collaborating with multiple contributors.
- Implemented subscription-based access flows and reusable UI components to improve user experience.
- Developed backend APIs using NestJS and PostgreSQL for application and subscription workflows.
- Designed database models and relationships and implemented relational queries using ORM.
- Implemented authentication and subscription management modules supporting SaaS business requirements.
- Optimized database queries and backend workflows to improve application performance.
- Troubleshot production issues by analyzing application logs and debugging backend API errors.
- Developed reusable frontend and backend modules to accelerate feature delivery.

Helping Hands - Workforce Management Platform (Under Development)

- Building a full-stack workforce management platform connecting employers with skilled and unskilled workers across multiple job categories.
- Developing cross-platform mobile applications using React Native, Expo, TypeScript, Redux Toolkit, RTK Query, Zustand, and Context API.
- Building backend services using Node.js, Express.js, MongoDB, and JWT-based authentication and authorization mechanisms.
- Designing scalable REST APIs, database schemas, and reusable backend architecture to support future platform growth.
- Implementing role-based access control for employers, workers, and administrators with separate workflows and permissions.
- Developing worker onboarding, profile management, job posting, job application, and hiring workflows.
- Integrating notification systems, search and filtering capabilities, and real-time data synchronization features.
- Managing the complete development lifecycle including frontend architecture, backend development, database design, API integration, testing, and deployment planning.
- Utilizing Docker, MongoDB Compass, Swagger UI, GitHub Copilot, Claude, ChatGPT, and Cursor AI to improve development productivity and code quality.
- Currently under active development with a focus on scalability, maintainability, and production-ready architecture.

Education

The Study Hall College — **Lucknow, Uttar Pradesh**
Bachelor of Computer Application — *07/2018 – 07/2021*

Training & Certifications

Masai School — **Bengaluru, Karnataka**
Full Stack Web Development Certification — *11/2021 – 07/2022*

- Trained in JavaScript, React.js, Node.js, Express.js, MongoDB, REST APIs, authentication, and full-stack web development.
- Practiced Data Structures and Algorithms and developed multiple learning projects, including website UI clones and backend REST APIs.
- Served as a Student Guide for 2 months, supporting peers with technical learning and project-related guidance.
- Completed professional development training covering communication, personality development, and professional work environments.
